MOWBRAY S. NICHOLLS,
Honorary Secretary,
Care of Hongkong Club.
Hongkong, February 25, 1902. 398

NOTICE.

ARRANGEMENTS FOR WATER
SUPPLY TO THE LOW-LEVEL
DISTRICT OF THE CITY.

It is anticipated that arrangements will
be completed by SUNDAY, the 2nd
proximo, for supplying the inhabitants of
the City near the PEARL front, between the
Central Market and the Sailors' Home,
with water to be obtained from tanks erect-
ed at the following places:-
(1) Opposite Eastern Street.
(2) At San Pak Hong Pier.
(3) To eastward of the Canton and
Maau Steamboat Wharf.

Should these arrangements be completed
water will not be turned on, on and after
the date mentioned to the district bounded
by Queen's Road on the south, by Jubilee
Street on the east and by Western Street
on the west.

If the arrangements be not completed,
water will be turned on as usual.

W. CHATHAM,
Water Authority.

The publication of this notice commences at 6.00 p.m.

The China Mail.

HONGKONG, FRIDAY, FEBRUARY 28, 1902.

LOCAL AND GENERAL.

Notes by the Way.

Dengue fever is still very prevalent in Bangkok.

The Chinese of San Francisco have taken to jing-ping.

The National Victoria Memorial Fund has reached £189,000.

Mr. Walter Fisher has been appointed Chairman of the Tientsin Municipal Council.

Six cases of bubonic plague were discovered in Sydney between the 17th and 22nd ult.

The mail train conveying the London mails of the 31st ult. to Brindisi was delayed 14½ hours by snow.

And, now amidst these three, says Punch, 'natchah, cultchah, leetchah, but the greatest of these is leetchah.'

Mr. Osbert Chadwick, the Sanitary Expert sent out from England, arrived in the Colony to-day by the English mail steamer Oriental.

Capt. Madsen, of the barque *Egghild*, left Bangkok a fortnight ago for Europe, in order to bring out one of the new coasting steamers for the East Asiatic Co., Ltd.

Mr. A. Stanley Collis, District Engineer, Ceylon Civil Service, has received an appointment in South Africa from the High Commissioner. His headquarters will be in Pretoria, his salary £2500 a year, and he and his family are granted a free passage from Ceylon to Pretoria.

An 'Undesirable'.

A Shanghai exchange reports a case of attempted arson at the sister port, in which the criminal was sentenced to 500 blows with a rattan and deportation to Hongkong. We hope the Shanghai police duly notified the Hongkong authorities so that this 'undesirable' could be identified and returned to his native soil.

Cricket.

The following will represent the Combined Schools of Hongkong in the match against the H. K. Cricket Club to-morrow, commencing at 11 a.m.:—L. E. Lam, (Capt.), R. Bass, J. L. Stuart, J. H. Ruttonji, A. E. Asger, R. Pantonji, M. H. Hartmann, H. Taylor, R. C. Wicheh, J. Wicheh, E. Abraham, J. V. Remedios, J. J. Remedios, L. M. P. Remedios, St. A. Ramjhan, A. O. Brown, E. R. Horton, E. S. Ford, P. Wilho, L. A. Rose and L. D'Almeida Castro. The following will play for the Club:—Major Wynne, R. A. Lieut. France Hayhurst, R. W. F. L. Lieut. Raymond, R. N. J. Hooper, W. Dixon, Capt. Krickbeek, 22nd B. L. J. A. Woodgate, Lieut. Edmundson, R. A. P. W. Goldring, J. Brown, and A. N. Other.

The Mercantile Marine.

There is some word of engineers in the mercantile marine of Hongkong demanding a rise of pay on similar grounds to that which has been asked by the men at sea, but whether any move has yet been made by the men at sea, we are not in a position to say. The deck officers obtained a rise of from £14 to £15 per month for first mates, and from £10 to £13 for second mates (the latter asked for £14), but the third mates remain unchanged. This matter is still a subject of discussion, but the fact that very few ships here run third mates and that those who are employed as such are mostly only 'temporarily' so engaged makes it one of very little moment. It is probable that one long concession will be made.

Plague Services Recognised.

Those who were heretofore last plague season must have been struck with the activity of Sanitary Inspector Reidie, who was in charge of the plague gang. He has been here, and everywhere directing the removal of infected materials and the cleansing and disinfection of plague-stricken properties. At the end of the season, the Sanitary Board took the matter of Inspector Reidie's services into consideration and unanimously recommended that a special honorarium of \$450 be awarded. The Colonial Secretary, in moving the vote at yesterday's meeting of the Finance Committee, said:—Inspector Reidie discharged excellent services in connection with the plague, and the Sanitary Board unanimously recommended that these services should be recognised by a grant of \$450. I feel sure that this Committee will agree with that recommendation of the Sanitary Board by recommending the Council to vote this sum. The recommendation was approved.

Germany in Shanghai.

The Times Peking Correspondent says that the German demands for exclusive mining rights in Shanghai have been virtually conceded.

The Refuse Destructor.

The sum of \$2000 already voted for the erection of a refuse destructor is exhausted, and it has been found necessary to vote an additional \$4000, including \$2000 as the estimated cost of the refuse destructor.

Another Warship Missing.

A telegram dated 10th inst. states that anxiety is manifested at Portsmouth regarding H.M.S. *Egeria*, which went to search for the *Condon*. The latter has not been heard of since leaving Esquimaux last December, and the *Egeria* is much overdue. The *Egeria* is commanded by Com. C. H. Simpson. She is a surveying ship of 910 tons displacement. A later telegram says:—Wreckage of the warship *Condon* has been found on the Vancouver coast, and this renders her loss certain.

Clerk to the Commons.

Sir Courtenay P. Lytton, K.C.S.I., C.I.E., has been appointed Clerk of the House of Commons in succession to Mr. Archibald John Scott Milman, C.B. The salary is £2500 per annum. The name of Lytton is something like a red-ink to the Anglo-Indian, because of the notorious Lytton Bill of the eighties, which proposed to do away with the rights of a Britisher to be tried in India by a white man. He was Mr. Lytton then, and was Legal Member of the Victoria Council. He is now in his 62nd year.

Capsicum Customs House.

The well-known Capsicum Customs Station, which has been practically untenanted since the taking over of the New Territory from the Chinese has been put in a state of repair by the Government, and \$4213.58 has been voted to cover the cost. The Colonial Secretary, in moving the vote at yesterday's meeting of the Finance Committee, and in answer to a question by Hon. C. P. Chater, said the building was not being used for any purpose, but it was not unlikely that the Government would put it to some use. In any case, the member would agree, after his large experience of property in Hongkong, that it was an unwise thing to let a house go into decay. If that was allowed, the cost of renewing Capsicum Customs Station would be greater than \$4000. It might be a very valuable property, and suggestions had been made which were not yet ripe with regard to it. He was not in a position to indicate what use it would be put to, but the members of the Committee might rest assured that the Government was not incurring this expenditure without having something in view. Might we suggest that the Capsicum Customs Station be converted into a sanatorium. It is close to the Colony and is easy of access, and has all the appearance of being healthy.

Consular Changes.

Mr. O'Brien-Butler, British Consul at Fouchow, is being relieved by Mr. Playfair, and goes home on leave. On the eve of his departure, Mr. O'Brien-Butler gave a farewell banquet, which was attended by the Tartar General, Viceroy of the Min Che Province, and all the higher Chinese officials; Mr. Walter Lay, Commissioner of Customs; Mr. Hughes, Acting Vice-Consul, Pagoda Anchorage; Dr. Davenport, and Mr. L. A. Mackinnon. (Mr. Mackinnon, it may be mentioned, proceeds as Acting Consul to Mouk (Tung Yach) at an early date, and will be succeeded at Fouchow by Mr. Pearson.) After luncheon, Mr. O'Brien-Butler gave a short address, in the course of which he thanked the officials for their friendly services during his period of office at Fouchow. The Viceroy replied, and expressed regret at Mr. O'Brien-Butler's departure. Mr. Shui, the Interpreter of the Board of Foreign Affairs next rose, and read the following speech in English:—Their Excellencies the Tartar General and the Viceroy desire to say that when Mr. O'Brien-Butler so kindly called upon them yesterday they regretted they had not sufficient time to express their feeling of regret at parting with him. They therefore thank him the more cordially for his kind invitation, as it gives them an opportunity to express their friendly sentiments. The intercourse of the Chinese officials with Mr. B. M. Consul has always been on the most intimate terms, and their Excellencies cannot easily forget the kindness and fairness shown by him in all transactions. They hope Mr. O'Brien-Butler will before long be re-appointed to Fouchow that they may have the benefit of his good advice. Their Excellencies are sure that their friendly sentiments are reciprocated. They beg to express their thanks for the hospitality extended towards them to-day, and they propose Mr. O'Brien-Butler's health, wishing him a pleasant journey home, conveying with him a well-merited reputation.

TO GET RID OF A TROUBLESOME CORN.

FIRST soak it in warm water to soften it, then pare it down as closely as possible without drawing the blood, and apply Chamberlain's Pain Balm twice daily, rubbing vigorously for five minutes at each application. A corn plaster should be worn for a few days, to protect it from the shoe. As a general liniment for sprains, bruises, lameness and rheumatism, Pain Balm is unequalled. For sale by ALL Dealers; WATKINS Ltd., General Agents.

LOCAL AND GENERAL.

College of Medicine.

A new session of the Hongkong College of Medicine for Chinese commenced on 11 Monday. Courses of lectures have been arranged as follows:—Medical Jurisprudence, Hon. Dr. Ho Kai; Public Health, Dr. Francis W. Clark; Chemistry, Mr. P. Brown; Anatomy, Dr. MacLean Gibson; Pathology, Dr. F. J. A. Berger; Physiology, Dr. W. W. Pearce; Midwifery and Diseases of Women and Infants, Dr. P. Krieg; Surgery, Dr. A. Reine; Tropical Diseases, Dr. J. C. Thomson.

The Rats Ordinance, 1902.

Every endeavour is to be made by the Hongkong Government to minimise the number of rats by destroying them both on shore and in the vessels in the Harbour, it being the general belief that, in certain circumstances, rats are instrumental in spreading plague. A Bill entitled 'An Ordinance to authorize the making of Regulations with regard to Rats' has accordingly passed its third reading. Broaches of the Regulations to be made are to be punishable by a penalty not exceeding a hundred dollars, or imprisonment not exceeding a month. The 'Objects and Reasons' appended to the Bill are stated as follows:—The object of this Ordinance is to 'enable such Regulations to be made as may be deemed expedient to provide against the spread of plague infection by rats. A report such as Hongkong is specially liable to this danger, having regard to the large number of vessels which enter the harbour and discharge cargo.

Cape Colony Chinese and Plague.

In reply to a request for information by H. K. the Governor of Hongkong regarding a statement in the Home press that the Chinese in Cape Colony enjoyed immunity from infection during the late outbreak of plague, Dr. Gregory, Medical Officer of Health for Cape Colony and Director of Plague Administration, has furnished a long report which was laid on the table at yesterday's meeting of the Legislative Council. Dr. Gregory states that there are no accurate data at his disposal upon which to base a calculation as to the relative number of Chinese at present residing in Cape Colony as compared with the rest of the population. The last census of the population of the Colony was taken as far back as the year 1891, and according to these returns there were only 216 Chinese males (no females) residing in Cape Colony, but it is certain that this number has largely increased. The number of cases discovered among Chinese was only ten, eight of which occurred at Port Elizabeth. A round enumeration of Chinese, Asiatics (Indians) and Aboriginal Natives at Port Elizabeth resulted in the discovery of 390 Chinese, 707 Indians, and 8,830 Aboriginal Natives. The comparative incidence of the disease at Port Elizabeth was roughly 2 per cent and a mortality of 1½ per cent of Chinese, 0.57 per cent, and 100 per cent of Indians, and 4 per cent of aboriginals. (The percentage of mortality is not stated). So far as could be judged from the figures, both the incidence of disease and the mortality, when attacked, was greater among Chinese than among the other races.

The Better Control of Coolies.

A Bill entitled 'An Ordinance to provide for the more effective control of their and their children in private employ' was read for the first time at the meeting of the Legislative Council held yesterday. The 'Objects and Reasons' attached to the Bill are as follows:—Private chair and jimricksha coolies have almost invariably in this Colony been hired by the month, and the usual custom has been to provide them with free quarters on their employer's premises. Until recent times it was generally supposed that sub-section (3) of section 3 of Ordinance No. 14 of 1845, which dealt with misconduct in the case of domestic servants, applied to such private coolies. Doubts, however, arose as to whether they technically came within the term 'domestic servants,' and in consequence there has of late been no control whatever over them. There is no reason why such coolies, residing on the premises, should be exempted from the penalty for misconduct to which house boys, house coolies and cooks have been liable for considerably more than fifty years in this Colony. This Ordinance places them accordingly on an equality with ordinary Chinese domestic servants in that respect. Section 4 makes it clear that an agreement to perform the additional service which has always been the custom for chair and jimricksha coolies to perform is implied in the contract of service, unless expressly excluded. The misconduct of many of the coolies of the class mentioned in this Ordinance has formed of late the subject of numerous complaints, and it is trusted that the provision of a penalty for such misconduct may conduce to some improvement in this respect.

The Health and Vigour of an individual depend upon the quantity and quality of the blood. When the tissues have been at work, there are these to be eliminated (but through any cause) detained in the blood they influence nutrition and function and finally produce organic disease.—The Humanitarian.

In cases of 'Fever, Scurvy, Eczema, Bad Legs, Skin and Blood Diseases, Pimples and Sores of all kinds, the effects of Clarke's Blood Purifier are marvellous. Thousands of wonderful cures have been effected by it. Clarke's Blood Purifier is sold everywhere at 2s. 6d. per bottle. Beware of worthless imitations and substitutes.

THE CHINA MAIL.

HONGKONG, FRIDAY, FEBRUARY 28, 1902.

LOCAL AND GENERAL.

Notes by the Way.

Dengue fever is still very prevalent in Bangkok.

The Chinese of San Francisco have taken to jing-ping.

The National Victoria Memorial Fund has reached £189,000.

Mr. Walter Fisher has been appointed Chairman of the Tientsin Municipal Council.

Six cases of bubonic plague were discovered in Sydney between the 17th and 22nd ult.

The mail train conveying the London mails of the 31st ult. to Brindisi was delayed 14½ hours by snow.

And, now amidst these three, says Punch, 'natchah, cultchah, leetchah, but the greatest of these is leetchah.'

Mr. Osbert Chadwick, the Sanitary Expert sent out from England, arrived in the Colony to-day by the English mail steamer Oriental.

Capt. Madsen, of the barque *Egghild*, left Bangkok a fortnight ago for Europe, in order to bring out one of the new coasting steamers for the East Asiatic Co., Ltd.

Mr. A. Stanley Collis, District Engineer, Ceylon Civil Service, has received an appointment in South Africa from the High Commissioner. His headquarters will be in Pretoria, his salary £2500 a year, and he and his family are granted a free passage from Ceylon to Pretoria.

An 'Undesirable'.

A Shanghai exchange reports a case of attempted arson at the sister port, in which the criminal was sentenced to 500 blows with a rattan and deportation to Hongkong. We hope the Shanghai police duly notified the Hongkong authorities so that this 'undesirable' could be identified and returned to his native soil.

Cricket.

The following will represent the Combined Schools of Hongkong in the match against the H. K. Cricket Club to-morrow, commencing at 11 a.m.:—L. E. Lam, (Capt.), R. Bass, J. L. Stuart, J. H. Ruttonji, A. E. Asger, R. Pantonji, M. H. Hartmann, H. Taylor, R. C. Wicheh, J. Wicheh, E. Abraham, J. V. Remedios, J. J. Remedios, L. M. P. Remedios, St. A. Ramjhan, A. O. Brown, E. R. Horton, E. S. Ford, P. Wilho, L. A. Rose and L. D'Almeida Castro. The following will play for the Club:—Major Wynne, R. A. Lieut. France Hayhurst, R. W. F. L. Lieut. Raymond, R. N. J. Hooper, W. Dixon, Capt. Krickbeek, 22nd B. L. J. A. Woodgate, Lieut. Edmundson, R. A. P. W. Goldring, J. Brown, and A. N. Other.

The Mercantile Marine.

There is some word of engineers in the mercantile marine of Hongkong demanding a rise of pay on similar grounds to that which has been asked by the men at sea, but whether any move has yet been made by the men at sea, we are not in a position to say. The deck officers obtained a rise of from £14 to £15 per month for first mates, and from £10 to £13 for second mates (the latter asked for £14), but the third mates remain unchanged. This matter is still a subject of discussion, but the fact that very few ships here run third mates and that those who are employed as such are mostly only 'temporarily' so engaged makes it one of very little moment. It is probable that one long concession will be made.

Plague Services Recognised.

Those who were heretofore last plague season must have been struck with the activity of Sanitary Inspector Reidie, who was in charge of the plague gang. He has been here, and everywhere directing the removal of infected materials and the cleansing and disinfection of plague-stricken properties. At the end of the season, the Sanitary Board took the matter of Inspector Reidie's services into consideration and unanimously recommended that a special honorarium of \$450 be awarded. The Colonial Secretary, in moving the vote at yesterday's meeting of the Finance Committee, said:—Inspector Reidie discharged excellent services in connection with the plague, and the Sanitary Board unanimously recommended that these services should be recognised by a grant of \$450. I feel sure that this Committee will agree with that recommendation of the Sanitary Board by recommending the Council to vote this sum. The recommendation was approved.

Germany in Shanghai.

The Times Peking Correspondent says that the German demands for exclusive mining rights in Shanghai have been virtually conceded.

The Refuse Destructor.

The sum of \$2000 already voted for the erection of a refuse destructor is exhausted, and it has been found necessary to vote an additional \$4000, including \$2000 as the estimated cost of the refuse destructor.

Another Warship Missing.

A telegram dated 10th inst. states that anxiety is manifested at Portsmouth regarding H.M.S. *Egeria*, which went to search for the *Condon*. The latter has not been heard of since leaving Esquimaux last December, and the *Egeria* is much overdue. The *Egeria* is commanded by Com. C. H. Simpson. She is a surveying ship of 910 tons displacement. A later telegram says:—Wreckage of the warship *Condon* has been found on the Vancouver coast, and this renders her loss certain.

LOCAL AND GENERAL.

College of Medicine.

A new session of the Hongkong College of Medicine for Chinese commenced on 11 Monday. Courses of lectures have been arranged as follows:—Medical Jurisprudence, Hon. Dr. Ho Kai; Public Health, Dr. Francis W. Clark; Chemistry, Mr. P. Brown; Anatomy, Dr. MacLean Gibson; Pathology, Dr. F. J. A. Berger; Physiology, Dr. W. W. Pearce; Midwifery and Diseases of Women and Infants, Dr. P. Krieg; Surgery, Dr. A. Reine; Tropical Diseases, Dr. J. C. Thomson.

The Rats Ordinance, 1902.

Every endeavour is to be made by the Hongkong Government to minimise the number of rats by destroying them both on shore and in the vessels in the Harbour, it being the general belief that, in certain circumstances, rats are instrumental in spreading plague. A Bill entitled 'An Ordinance to authorize the making of Regulations with regard to Rats' has accordingly passed its third reading. Broaches of the Regulations to be made are to be punishable by a penalty not exceeding a hundred dollars, or imprisonment not exceeding a month. The 'Objects and Reasons' appended to the Bill are stated as follows:—The object of this Ordinance is to 'enable such Regulations to be made as may be deemed expedient to provide against the spread of plague infection by rats. A report such as Hongkong is specially liable to this danger, having regard to the large number of vessels which enter the harbour and discharge cargo.

Cape Colony Chinese and Plague.

In reply to a request for information by H. K. the Governor of Hongkong regarding a statement in the Home press that the Chinese in Cape Colony enjoyed immunity from infection during the late outbreak of plague, Dr. Gregory, Medical Officer of Health for Cape Colony and Director of Plague Administration, has furnished a long report which was laid on the table at yesterday's meeting of the Legislative Council. Dr. Gregory states that there are no accurate data at his disposal upon which to base a calculation as to the relative number of Chinese at present residing in Cape Colony as compared with the rest of the population. The last census of the population of the Colony was taken as far back as the year 1891, and according to these returns there were only 216 Chinese males (no females) residing in Cape Colony, but it is certain that this number has largely increased. The number of cases discovered among Chinese was only ten, eight of which occurred at Port Elizabeth. A round enumeration of Chinese, Asiatics (Indians) and Aboriginal Natives at Port Elizabeth resulted in the discovery of 390 Chinese, 707 Indians, and 8,830 Aboriginal Natives. The comparative incidence of the disease at Port Elizabeth was roughly 2 per cent and a mortality of 1½ per cent of Chinese, 0.57 per cent, and 100 per cent of Indians, and 4 per cent of aboriginals. (The percentage of mortality is not stated). So far as could be judged from the figures, both the incidence of disease and the mortality, when attacked, was greater among Chinese than among the other races.

The Better Control of Coolies.

A Bill entitled 'An Ordinance to provide for the more effective control of their and their children in private employ' was read for the first time at the meeting of the Legislative Council held yesterday. The 'Objects and Reasons' attached to the Bill are as follows:—Private chair and jimricksha coolies have almost invariably in this Colony been hired by the month, and the usual custom has been to provide them with free quarters on their employer's premises. Until recent times it was generally supposed that sub-section (3) of section 3 of Ordinance No. 14 of 1845, which dealt with misconduct in the case of domestic servants, applied to such private coolies. Doubts, however, arose as to whether they technically came within the term 'domestic servants,' and in consequence there has of late been no control whatever over them. There is no reason why such coolies, residing on the premises, should be exempted from the penalty for misconduct to which house boys, house coolies and cooks have been liable for considerably more than fifty years in this Colony. This Ordinance places them accordingly on an equality with ordinary Chinese domestic servants in that respect. Section 4 makes it clear that an agreement to perform the additional service which has always been the custom for chair and jimricksha coolies to perform is implied in the contract of service, unless expressly excluded. The misconduct of many of the coolies of the class mentioned in this Ordinance has formed of late the subject of numerous complaints, and it is trusted that the provision of a penalty for such misconduct may conduce to some improvement in this respect.

The Health and Vigour of an individual depend upon the quantity and quality of the blood. When the tissues have been at work, there are these to be eliminated (but through any cause) detained in the blood they influence nutrition and function and finally produce organic disease.—The Humanitarian.

In cases of 'Fever, Scurvy, Eczema, Bad Legs, Skin and Blood Diseases, Pimples and Sores of all kinds, the effects of Clarke's Blood Purifier are marvellous. Thousands of wonderful cures have been effected by it. Clarke's Blood Purifier is sold everywhere at 2s. 6d. per bottle. Beware of worthless imitations and substitutes.

BUBONIC PLAGUE.

HOW TO DESTROY RATS!!

BUBONIC PLAGUE is a Disease among Rats and Mice, and they being migrating animals the infection is carried from house to house. It matters not how perfect the Sanitary Arrangements may be, if Rats and Mice are permitted to remain about the Premises the disease can be contracted. The best safeguard is to destroy Rats and Mice.

NEWTON'S RAT CHEESE.

This is the only preparation ever compounded which will effectually rid your house of these pests, as well as keep the premises free from them.

All that is necessary to do is to sprinkle the powder about where rats and mice frequent, inside the holes or between floors. The rats eat it and then seek the sewers for water, when death is produced.

With NEWTON'S RAT CHEESE it is not necessary to mix with any other substance to induce the animals to eat it, but sprinkle about according to directions, and the Rat Cheese does the rest.

The Rats will not die in the House after Eating NEWTON'S RAT CHEESE.

RATS AND MICE SPREAD DISEASES.

The fact has been scientifically established that rats and mice not only carry Bubonic Plague but also other infectious diseases, like Smallpox, Scarlet Fever, Diphtheria, etc. So the best protection against all such dangers is to keep rats and mice away from your house by using Newton's Rat Cheese. It is such a convenient article to use, no mixing with other substances is necessary.

See that you get the genuine NEWTON'S RAT CHEESE.

A GREAT EUROPEAN ENTERPRISE.

The inland City of Amsterdam has become a sea-port, and Engineering describes the extensive works carried out to enable ships to enter the ancient city, which, though not the official seat of the Government, is, with its population of half a million inhabitants—503,300 in 1898—the first town of the country. More a town of commerce than a transit port, Amsterdam regards its navigation only as one of the chief sources of its prosperity—a prosperity which must not be measured simply by the extent of its shipping. Yet it could not maintain its place at the head of the Netherlands trade, and its rank among the great emporiums of the Continent, with its situation on the bay of the shallow Zuyder Sea, called the Y on account of its shape, without having better connections with the open sea. The North-Holland Canal, finished in 1825, which joins Amsterdam to the Helder and the Nieuwe Diep at the northern extremity of North Holland, and thus to the North Sea, lost much of its importance when large steamers were more and more replacing sailing craft. It is not a small canal by any means; from 100 ft. to 130 ft. wide, and 20 ft. to 23 ft. deep, it can accommodate large vessels. But a canal, 52 miles in length, leading to a terminus, not a thoroughfare offering shorter passages on international high roads, can satisfy modern requirements only under exceptional circumstances. The North Sea Canal took the shorter route west. It has a length of 15 miles only, reckoned from Amsterdam to Yantiden on the North Sea. The Y was partly dredged and partly filled up, and the narrow isthmus, separating the Y from the North Sea, was cut at the spot where the fisher village of Yantiden has since risen. The eastern Amsterdam extremity of the new canal had to be closed against the Panhuis, the south-western marshy portion of the Zuyder Sea, which often threatened Amsterdam with inundation. The port of Amsterdam had to be improved to accommodate the largest sailing vessels, and an outlet by water, direct canal connection with the Rhine, has been provided for; the Rhine-Meuse Canal, which starts at the northern end of port of Amsterdam.

For the Blood is the Life.—Clarke's World-famous Blood Mixture is warranted to cure the blood from all impurities from whatever cause arising. For Scrofula, Scurvy, Eczema, Bad Legs, Eide, and Blood Diseases, Pimples and Sores of all kinds, its effects are marvellous. Thousands of wonderful cures have been effected by it. Sold everywhere at 2s. 9d. Beware of worthless imitations.

Six cases of bubonic plague were discovered in Sydney between the 17th and 22nd ult.

The mail train conveying the London mails of the 31st ult. to Brindisi was delayed 14 hours by snow.

And now adieu these three, says Punch, 'matchah, culchah, leechah, but the greatest of these is leechah.'

Mr. Oshert Clendwick, the Sanitary Inspector, has been appointed Chairman of the Tientsin Municipal Council.

LOCAL AND GENERAL.

Germany in Shantung.

The Times Peking correspondent says that the Germans demand for exclusive mining rights in Shantung have been virtually conceded.

The Refuse Destructor.

The sum of \$250 already voted for the erection of a refuse destructor is exhausted, and it has been found necessary to vote an additional \$480, including \$200 as the estimated cost of the refuse destructor.

Another Warship Missing.

A telegram dated 10th inst. states that a ship is missing at Port Antonio regarding H.M.S. *Albatross*, which went to search for the *Condor*. The latter has not been heard of since leaving Esquimaux last December, and the *Albatross* is much overdue. The *Albatross* is commanded by Com. C.H. Stimpson. She is a surveying ship of 300 tons displacement. A later telegram says:—Wreckage of the warship *Condor* has been found on the Vancouver coast, and this renders her loss certain.

Clerk to the Commons.

Sir Courtenay P. Bert, K.C.S.L., C.I.E., has been appointed Clerk of the House of Commons in succession to Mr. Archibald John Scott-Moncrieff, C.B. The salary is £250 per annum. The name of Bert is something like a red rag to the Anglo-Indian, because of the notorious Bert of the eighties, which proposed to do away with the rights of a Britisher to be tried in India by a white man. He was Mr. Bert then, and was Legal Member of the Victoria Council. He is now in his 62nd year.

Captain Customs House.

The well-known Captain Customs Station, which has been practically unattended since the taking over of the New Territory from the Chinese has been put in a state of repair by the Government, and \$225.54 has been voted to cover the cost. The Colonial Secretary, in moving the vote at yesterday's meeting of the Finance Committee, and in answer to a question by Hon. C. P. Clater, said the building was not being used for any purpose, but it was not unlikely that the Government would put it to some use. In any case, the member would agree, after his large experience of property in Hongkong, that it was an unwise thing to let a house go into decay. If that was allowed, the cost of renewing Captain Customs Station would be greater than \$400. It might be a very valuable property, and suggestions had been made which were not yet ripe with regard to it. He was not in a position to indicate what use it would be put to, but the members of the Committee might rest assured that the Government was not incurring this expenditure without having something in view. Might we suggest that the Captain Customs Station be converted into a sanatorium. It is close to the Colony and is easy of access, and has all the appearance of being healthy.

Consular Changes.

Mr. O'Brien-Butler, British Consul at Fochow, is being relieved by Mr. Playfair, and goes home on leave. On the eve of his departure, Mr. O'Brien-Butler gave a farewell banquet, which was attended by the Tartar General, Viceroy of the Min Choo Province, and all the higher Chinese officials; Mr. Walter Lay, Commissioner of Customs; Mr. Hughes, Acting Vice Consul, Peking; Mr. Davenport, and Mr. L. A. Mackinnon. (Mr. Mackinnon, it may be mentioned, proceeds as Acting Consul to Mourei (Teng Yuen) at an early date, and will be succeeded at Fochow by Mr. Pearson.) After luncheon, Mr. O'Brien-Butler gave a short address, in the course of which he thanked the officials for their friendly services during his period of office at Fochow. The Viceroy replied, and expressed regret at Mr. O'Brien-Butler's departure. Mr. Shu, the Interpreter of the Board of Foreign Affairs next rose, and read the following speech in English:—Their Excellencies the Tartar General and the Viceroy desire to say that when Mr. O'Brien-Butler so kindly called upon them yesterday they regretted they had not sufficient time to express their feeling of regret at parting with him. They therefore thank him the more cordially for his kind invitation, as it gives them an opportunity to express their friendly sentiments. The intercourse of the Chinese officials with Mr. O'Brien-Butler has always been on the most intimate terms, and their Excellencies cannot easily forget the kindness and friendliness shown by him in all transactions. They hope Mr. O'Brien-Butler will, before long be re-appointed to Fochow that they may have the benefit of his good advice. Their Excellencies are sure that their friendly sentiments are reciprocated. They beg to express their thanks for the hospitality extended towards them in Fochow, and they propose Mr. O'Brien-Butler's health, wishing him a pleasant journey home, conveying with him a well-merited reputation.

Plague Services Recognised.

Those who were here during last plague season must have been struck with the activity of Sanitary Inspector Reidie, who was in charge of the plague gang. He was here, there, and everywhere directing the removal of infected materials and the cleansing and disinfection of plague-stricken properties. At the end of the season, the Sanitary Board took the matter of Inspector Reidie's services into consideration and unanimously recommended that a special honorarium of \$450 be awarded. The Colonial Secretary, in moving the vote at yesterday's meeting of the Finance Committee, said:—Inspector Reidie discharged excellent services in connection with the plague, and the Sanitary Board unanimously recommended that these services should be recognised by a grant of \$450. I feel sure that this Committee will agree with that recommendation of the Sanitary Board by recommending the Council to vote this sum. The recommendation was approved.

TO GET RID OF A TROUBLESOME COON.

FIRST soak it in warm water to soften it, then put it down as closely as possible without drawing the blood, and apply Chamberlain's Pain Balm twice daily, rubbing vigorously for five minutes at each application. A corn plaster should be worn for a few days, to protect it from the sun. An general liniment for sprains, bruises, lameness and rheumatism, Pain Balm is prepared. For sale by All Dealers. WATSON & CO., General Agents.
